

Microcomputer Body Rolling Massager

Our company adopted modern hi-tech technique and elaborately developed new generation of health care product, the microcomputer and multifunctional rolling massager. This product is easy to operate and can be used by people of all ages. The massager can be used on the feet, calf, thigh, waist, back, neck, and palm of hands, arms and so on. It has 8 speeds, two directions with knead, massage and manipulate function.

Benefits

- Eliminate Back, Neck, Shoulder, Thigh Pain
- Eliminate stress, muscle ache, neuralgia, and tiredness
- Accelerate metabolism and strengthen body
- Stimulate, invigorate and speed up peripheral blood circulation
- Exercise the muscles, remove fat and making the body vigorous and graceful
- Massaging the feet, activating the reflexology pressure points
- Stimulates blood circulation and halt the build-up of lactic acid which causes aches and pains. Relieves tiredness in the legs, calves and neck with its soothing and coordinating actions.

Action

- Kneading rollers, with the ergonomically designed nodes, provide deep penetrating massage to the sides of your foot.
- Ball bearings in the centre move in a left-to-right motion to glide across the soles of your feet, giving you intense acupressure stimulation.
- Superior roller system has rollers which are shaped according to the contours of human feet, giving your reflex zones a closer massage.
- Has a fully computerized program function and is simple to operate. Comes with a topside control panel for easy access of the single touch button controls. Has automatic timer (15/20 mins) which shuts off at the duration of your choice Totally safe and energy saving.
- Special soft rubber stubs provide a convenient and specific grip as it offers a cushion effect for a soft and comfortable massage. Its kneading speed can also be adjusted for greater effectiveness. Unique knuckle shaped rollers allow deeper penetration as it provides alternate stimulation for a more effective reflexology treatment.

Specifications

Measurement 465 x 275 x 150 (mm)

Voltage 220 – 240V

Power 25W
Weight 4kg
